Taha Amir

3D Generalist
Lahore, Punjab, Pakistan

Summary

Self-taught Artist with field experience crossing the 4-year mark. Being employed as a Freelancer provided me with project and time management skills paired with concise communication. As well as Working on a plethora of projects that differed entirely from each other which took my skills to a completely different level.

Experience

Upwork | CGI Artist | Aug 2021 - Current

I started working as a CGI content creator on Upwork and other freelancing platforms, with projects ranging from game assets and product catalogs to Simulations in SolidWorks and Visualizing Architectural Floorplans. Intrigued by photorealism I decided to take on my journey in the field which continues project by project as a freelancer.

Upwork | Junior Graphic Designer | Aug 2019 - Aug 2022

Mostly working as a Creative Director and got to experience so many levels of graphic design. UI, Styling guide, Cover Artwork, Label design, and animation sprites to name a few. From there I was massively inspired by CGI and Architecture which transitioned my career persuasion.
